DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 7, 14 are rejected under 35 U.S.C. 102(b) as being anticipated by Miks et al.

Miks et al., U.S. Patent No 6,910,635 discloses a multimedia card and method of making such a card. As show in the embodiment of Figure 4, the card has a housing defined by first and second sides 46 and 47. The bottom side has one or more windows 48 communicating with the interior chamber. A plurality of contacts 20 are disposed within the chamber and exposed with in the window 48. The circuit module 12 is inserted into the card through an open end. The side 46 of the module is shown with a spacer.

Allowable Subject Matter

Claims 2-6 and 8 - 13 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claim 15 - 23 are allowed.

The prior art, including Miks, does not disclose that the multimedia card comprises a lan grid array, that a spring clip is disposed within the interior chamber of
